Introduction	1
1 Background	3
1.1 Gaussian Processes	4
1.2 Spectral Representation of Stationary Covariance functions	5
1.3 Multi-Output Gaussian Processes	7
1.4 Previous work	9
1.4.1 Linear Model of Coregionalization (LMC)	10
1.4.2 Intrinsic Model of Coregionalization (IMC)	11
1.4.3 Semi-parametric latent factor model (SLFM)	11
1.4.4 Convolution Model (CONV)	12
1.4.5 Cross-Spectral Mixture kernel (CSM)	13
2 Multi-Output Spectral Mixture Kernel	15
2.1 Spectral Representation of Stationary Multivariate Covariance functions	15
2.2 Spectral Densities	17
2.3 Relationship with other models	20
2.4 t-Student Spectral Densities	21
3 Experiments	24
3.1 Synthetic example: Learning derivatives and delayed signals	24
3.2 Climate data	28
3.3 Heavy metal concentrations	30
Conclusions	34
