Contents

Table of contents **V**

List of Figures **VII**

List of Tables **IX**

List of Symbols **X**

1 Introduction **1**

2 Interferometry **6**

2.1 Direct detection Interferometry 8

2.2 Heterodyne detection Interferometry 9

2.3 Correlator 11

2.3.1 XF Correlator 12

2.3.2 FX Correlator 12

2.4 Detection Noise 13

2.4.1 Receiver noise temperature 14

2.5 Allan plot 14

2.5.1 Allan variance for astronomical instruments 15

3 Near Infrared Heterodyne Interferometer **17**

3.1 LO Distribution Box 18

3.2 Coupling system and telescope unit 20
3.3 Correlator 21
3.3.1 Chopper 22
3.3.2 Integrator and Memory allocation 25

4 Lab characterization of the detection system **28**
4.1 Calibration of the Analog to Digital Converter (ADC) 0 dBm level 28
4.2 FFT integration measurements 29
4.3 Allan variance Plots 36
4.4 Receiver noise temperature 38

5 Conclusions **41**

A Correlator's Simulink model **43**

Acronyms **45**

Bibliography **47**
