Duchesne, Pierre

Rojas-Hernandez, Noemi

Pardo, Luis M.

© 2016, Springer-Verlag Berlin Heidelberg. There was an error in the equation in the original version of this article. The correct equation is: $P(\text{case2}) = \frac{C_{NM2} \cdot N_L}{C_{(NM1+NM2)} \cdot N_L}$ Summing over the two independent cases, we finally obtain: $PSP_{tMB} = \frac{(C_{NM1} \cdot N_L + C_{NM2} \cdot N_L)}{C_{(NM1+NM2)} \cdot N_L}$.
