Iberia-latin-American symposia of morphological terminology (SILAT). First two years and statute Simposios ibero-latinoamericanos de terminología morfológica (SILAT). primeros dos años y normativas vigentes

Losardo, Ricardo Jorge
Gutiérrez, Rolando Cruz
Torres, Alberto Rodríguez
Prates, José Carlos
de Prates, Nadir Eunice Valverde Barbato

On the occasion of meeting the first two years of life, it makes a review of SILAT as scientific and educational program that serves as a tool to analyze and solve the problems of morphological medical terminology in the countries of Hispanic and Portuguese-speaking America. It describes the basis of its creation, strategy and scope in the region, the founding years and its immediate future. Finally, some conclusions are indicated and it Statute is annexed.
