

# Contents

<b>1</b>	<b>Introduction</b>	<b>1</b>
1.1	Motivation . . . . .	1
1.2	The Problem: Importance of Battery Modelling . . . . .	2
1.3	Hypotheses . . . . .	4
1.4	General Objectives . . . . .	5
1.5	Specific Objectives . . . . .	5
1.6	Contributions . . . . .	5
<b>2</b>	<b>Theoretical Framework</b>	<b>7</b>
2.1	State of the Art . . . . .	7
2.1.1	<i>SoC</i> & <i>SoH</i> -based battery models . . . . .	7
2.1.2	The <i>SoC</i> inference problem. . . . .	9
2.2	Variational Sequential Monte Carlo . . . . .	13
2.2.1	Variational Inference and the ELBO . . . . .	14
2.3	Sequential Monte Carlo . . . . .	15
2.4	The Bootstrap Particle Filter . . . . .	16
2.5	The surrogate ELBO . . . . .	17
2.6	Variational Expectation Maximisation . . . . .	18
2.7	The Variational Sequential Monte Carlo Algorithm . . . . .	18
<b>3</b>	<b>A Novel Method for the Prediction and Inference of the Internal Polarising Impedance and Total Energy Capacity Online</b>	<b>20</b>
3.1	Lithium-Ion Battery Hybrid Neural Adaptive State Space Model . . . . .	20
3.2	Simulating a “Ground Truth” . . . . .	22
3.3	Experimental Application of the NASSM . . . . .	23
3.3.1	NASSM experimental application to a New Battery . . . . .	25
3.3.2	Continuous application to the degrading battery . . . . .	26
3.4	Performance of the model Predicting battery disconnection . . . . .	29
3.4.1	Comparison of the Artificial Evolution Method performance on the New battery experimental discharge . . . . .	31
3.4.2	Comparison of the Artificial Evolution method performance on the degraded battery experimental discharge . . . . .	37
3.4.3	Prognosis as a measure of hidden parameter estimation performance . . . . .	39
3.5	State of Maximum Power Available Estimation . . . . .	41
3.6	Future Work . . . . .	43
3.6.1	Battery Module/Pack Application of the NASSM Algorithm . . . . .	43

3.6.2	Comparison of the Inferred Polarising Impedance to the True Polarising Impedance . . . . .	45
<b>4</b>	<b>Conclusion</b>	<b>46</b>
4.1	Addressing Assumptions and their Implications . . . . .	46
4.2	Validating the Hypotheses . . . . .	47
4.2.1	Hypothesis 1 . . . . .	47
4.2.2	Hypothesis 2 . . . . .	48
4.2.3	Hypothesis 3 . . . . .	48
4.2.4	Hypothesis 4 . . . . .	48
4.2.5	Hypothesis 5 . . . . .	49
	<b>Bibliography</b>	<b>50</b>
