

Contents

1	Introduction	1
2	The Model	5
2.1	Set Up	5
2.2	Neighborhood Composition	7
2.3	Equilibrium Conditions	11
2.4	Equilibrium Properties	12
3	Segregation in Equilibrium	14
3.1	Divergent Preferences	14
3.2	Equilibria Stability	16
4	Preferences for Neighborhood Composition	21
4.1	Methodology	21
4.2	Leading Group	23
	Public Goods and Gentrification	25
4.3	Homophily	28
	Preferences for Segregation	31
	Preferences for Integration	31
	Black Self-Segregation	33
	Racial Segregation and Income Inequality	35
4.4	Indifference and Neighborhood Tipping Point	36
4.5	Price Behavior	38
5	Concluding Remarks	41
	Bibliography	44
	Appendix	47
A	Proofs for Chapter 2	47
B	Proofs for Chapter 3	50
C	Proofs for Chapter 4	54

List of Figures

2.1	Classification of locations	10
2.2	Classification of allocations	10
4.1	Graphic explanation for Propositions 4.2.2 and 4.2.3	25
4.2	Example of gentrification	27
4.3	Example of how to avoid gentrification	28
4.4	Prejudice in preferences	30
4.5	Graphic explanation for Proposition 4.3.6	35
4.6	Equilibria with indifference	38
4.7	Prices in the prejudice case	39
4.8	Prices in the leading group case	40
