

Contents

Introduction	1
1 Cantor Minimal Systems	3
1.1 Preliminary Definitions and Results	3
1.2 Bratteli-Vershik Systems	8
1.3 Bratteli-Vershik Representations of Cantor Minimal Systems	19
1.4 Classification of Cantor Minimal Systems	25
2 Boshernitzan's Condition	27
2.1 Boshernitzan's Condition for Minimal Subshifts	27
2.2 Boshernitzan's Condition for Cantor Minimal Systems	34
2.3 Sublinear Complexity in a Subsequence for Bratteli-Vershik Systems	40
2.4 Boshernitzan's Condition for Bratteli-Vershik Systems	44
3 Examples and Applications	53
3.1 Bratteli-Vershik Systems of Bi-Toeplitz Type	53
3.2 Irrational Rotations and Sturmian Subshifts	58
Conclusion	63
Bibliography	67
