

CONTENTS

- 1. INTRODUCTION 1
- 2. SCOPE OF RESEARCH AND HYPOTHESIS 3
- 3. METHODOLOGY 5
 - 3.1 Stage 1: Project identification and selection 6
 - 3.1.1 Case selection 6
 - 3.2 Stage 2: Individual project analysis 7
 - 3.2.1 Sustainability measures identification 7
 - 3.2.2 Comparison with global sustainability reporting standards - measure implementation foresight 8
 - 3.2.3 Financial costs of measures per area of local socioeconomic sustainability 8
 - 3.2.4 Perception-of-benefit of the local population to each sustainability measure 9
 - 3.2.5 Dialogue and community engagement process description 11
 - 3.3 Stage 3: Collective project analysis 12
 - 3.3.1 Conjugation of individual project information into collective analysis table 12
 - 3.3.2 Collective dialogue and community engagement process description 13
- 4. RESULTS AND DISCUSSION 15
 - 4.1 Case selection 15
 - 4.2 Collective project analysis and discussion 17
 - 4.2.1 Comparison with global sustainability reporting standards and measure implementation foresight 17
 - 4.2.2 Financial costs of measures and distribution per area of local socioeconomic sustainability ... 19
 - 4.3.3 Perception-of-benefit of the local population to sustainability measures 21
 - 4.3.4 Dialogue process and community engagement analysis 21
- 5. CONCLUSIONS 25
- 6. BIBLIOGRAPHY 26
- 7. APPENDIX 30

TABLES

Table 1: Generic table for individual project analysis	10
Table 2: Generic table for collective project analysis	14
Table 3: Collective project analysis table.....	18
Table 4: Summary of dialogue and community engagement process.....	23
Table 5: Individual analysis table for Geita Gold Project	31
Table 6: Individual analysis table for Obuasi Gold Project.....	33
Table 7: Individual analysis table for Maricunga Project.....	35
Table 8: Individual analysis table for Caspiche Project	38
Table 9: Individual analysis table for Caspiche Project	40
Table 10: Individual analysis table for Yanacocha Project	42
Table 11: Individual analysis table for Pascua Lama Project	45
