TABLES INDEX

Table 1: Description of the variables

Table 2: Summary of statistics of the variables

Table 3: Corporate bond spreads, rollover risk and cash holdings

Table 4: Short term debt to total debt: financial stability versus financial distress

Table 5: Proportion of long term debt maturing within a year: financial stability versus financial distress

Table 6: Rollover risk (ST debt), cash holdings and bond maturity

Table 7: Rollover risk (Proportion of LT debt), cash holdings and bond maturity

Table 8: Bank & financial versus other sectors (ST debt)

Table 9: Bank & financial versus other sectors (Proportion of LT debt)

Table 10: Speculative grade bonds versus investment grade bonds

Table 11: Bank & financial: speculative grade bonds versus investment grade bonds (ST debt)

Table 12: Other sectors: speculative grade bonds versus investment grade bonds (ST debt)

Table 13: Bank & financial: speculative grade bonds versus investment grade bonds (Proportion of LT debt)

Table 14: Other sectors: speculative grade bonds versus investment grade bonds (Proportion of LT debt)
