

# Nicardipine: Differential pulse polarography and photodecomposition

Squella, J. A.

Borges, Y.

Celedon, C.

Peredo, P.

Nuñez-Vergara, L. J.

A new differential pulse polarographic method is proposed for the determination of nicardipine, based on the electroactivity of the nitroaromatic group of the molecule. The proposed method is applied in the determination of the drug in pharmaceutical formulations and in photodegradation studies. Copyright © 1991 VCH Publishers, Inc.
