

Umbilical reinsertion in abdominoplasty: Technique using deepithelialized skin flaps

Castillo, Paulo F.

Sepúlveda, Cristian A.

Prado, Arturo C.

Troncoso, Antonio L.

Villamán, Juan J.

One goal of abdominoplasty is to reestablish a natural-appearing umbilicus with hidden scars. The authors present a new technique for navel reinsertion. © 2007 Springer Science+Business Media, LLC.
