

Contents

Introduction	1
1 Preliminaries	6
1.1 Matroids	6
1.2 Optimization problems on matroids	14
2 Uncertainty matroids and uniformly minimum bases	17
2.1 Basic definitions	17
2.2 Blue elements	22
2.3 Red elements	27
2.4 Properties of uniformly minimum bases	30
2.5 Colorings and existence of uniformly minimum bases	33
2.6 A solution to the UMB problem	37
3 Feasible query sets	42
3.1 Feasible query sets in decomposable matroids	42
3.2 Two illustrative cases: Interval and $\{0, 1\}$ areas	47
3.3 An analogue to witness sets	52
3.4 Critical pairs and a solution to the MCFQS problem	56
4 Algorithmic solutions to the UMB and MCFQS problems	62
4.1 Model of computation	62
4.2 Algorithmic solutions to the MCFQS problem	64
4.3 Algorithmic solutions to the UMB problem	71
Conclusion	74
Bibliography	76
