TABLE OF CONTENT

1. Introduction ..... - 1 -

1.1 General Background ..... - 1 -

1.2 Objectives and Statement ..... - 5 -

1.2.1 General Objective ..... - 5 -

1.2.2 Specific Objectives ..... - 5 -

1.2.3 Statement and Thesis Scope ..... - 6 -

2. Theoretical Background ..... - 7 -

2.1 Structural Damage ..... - 7 -

2.2 Transmissibility Functions ..... - 7 -

2.3 Machine Learning and Deep Learning ..... - 10 -

2.4 Feed Forward Neural Networks (FFN) ..... - 11 -

2.5 Backpropagation ..... - 14 -

2.6 Minibatch Gradient Descent ..... - 16 -

2.7 Overfitting and Dropout ..... - 16 -

2.8 Convolutional Neural Networks (CNN) ..... - 17 -

2.9 Capsule Neural Networks (CapsNets) ..... - 19 -

2.9.1 Capsules and Routing according to “Dynamic Routing Between Capsules” .- 21 -

2.9.2 Capsules and Routing according to “Matrix Capsules with EM Routing” ... - 24 -

2.10 Performance Metrics ..... - 27 -

3. Working Methodology ..... - 29 -

4. Proposed Capsule Networks for Damage Localization and Quantification .... - 30 -

5. Results ..... - 34 -

5.1 Case Study 1: Spring-mass system ..... - 34 -

5.1.1 Training Results, Dynamic Routing ..... - 36 -

5.1.2 Experimental Results: Dynamic Routing ..... - 36 -
5.1.3 Training Results: EM Routing ..... - 37 -
5.1.4 Experimental Results: EM Routing ..... - 38 -
5.1.5 Comparison Between Models ..... - 40 -
5.2 Case Study 2: Structural Beam ..... - 41 -
5.2.1 Training Results, Dynamic Routing ..... - 44 -
5.2.2 Experimental Results: Dynamic Routing ..... - 46 -
5.2.3 Training Results: EM Routing ..... - 52 -
5.2.4 Experimental Results: EM Routing ..... - 55 -
5.2.5 Comparison Between Models ..... - 61 -
5.2.6 Influence of dropout, dynamic routing ..... - 67 -
6. Discussion and Analysis ..... - 81 -
6.1 Case Study 1: Spring-mass system ..... - 81 -
6.2 Case Study 2: Beam ..... - 83 -
7. Conclusion and Comments ..... - 89 -
7.1 Conclusions ..... - 89 -
7.2 Comments and Future Work ..... - 89 -
Bibliography ..... - 91 -

LIST OF TABLES

Table 5.1 Types of training images ..... - 35 -
Table 5.2 Model configurations ..... - 35 -
Table 5.3 Training performance metrics for capsule networks models with dynamic routing, first case study ..... - 36 -

Table 5.4 Training performance metrics for capsule networks models with EM routing, first case study ..... - 38 -

Table 5.5 Damage scenarios for beam experimental cases ..... - 43 -

Table 5.6 Training performance metrics for capsule networks models with dynamic routing, second case study ..... - 44 -

Table 5.7 Training performance metrics for capsule networks models with EM routing, second case study ..... - 53 -

Table 5.8 Comparison between models with and without dropout, training phase.... - 68 -

LIST OF FIGURES
