

TABLA DE CONTENIDO

CAPÍTULO 1	1
1.1. Motivación	1
1.2. Estructura de la tesis	1
1.3. Relevancia de los sedimentos para su entorno.....	1
1.4. Guías de calidad de sedimento (<i>Sediment Quality Guidelines, SQG</i>).....	2
1.5. Cuencas de alta montaña hidrotermalmente alteradas y la importancia del <i>background</i> local.	3
1.6. Objetivos.....	5
1.6.1. Hipótesis de trabajo	5
1.6.2. Objetivo general	5
1.6.3. Objetivos específicos.....	5
CAPÍTULO 2	6
2.1. INTRODUCTION	7
2.2. FIELD BACKGROUND INFORMATION	9
2.2.1. Geographical and Geological setting.....	9
2.2.2. Climate, Hydrology and Hydrogeochemical setting	11
2.3. MATERIAL AND METHODS	12
2.3.1. Sediment sampling campaigns and sediment treatment.....	12
2.3.2. Chemical and mineralogical analyses.....	13
2.4. RESULTS AND DISCUSSION	14
2.4.1. Mineralogical characterization of the Mapocho upper basin's sediments	14
2.4.2. Geochemical characterization of the Mapocho upper basin's sediments.....	16
2.4.3. Sediments natural geochemical background at the Mapocho upper basin as a proxy of Andean hydrothermally-altered high-mountainous regions	20
2.4.4. Sediments geochemical background at the Mapocho upper basin vs Sediment Quality Guidelines (SQG).....	23
2.5. IMPLICATIONS AND CONCLUDING REMARKS	25
2.6. ACKNOWLEDGMENTS	27
2.7. REFERENCES	27
CAPÍTULO 3	32
Supplementary material	32

3.1. Mapocho's upper basin	32
3.1.1. Yerba Loca Stream	32
3.1.2. San Francisco River	34
3.1.3. Molina River	35
3.2. Sediments mineralogical analysis	36
3.3. Sediments geochemical analysis	39
CAPÍTULO 4	40
4.1. Conclusiones	40
4.2. Bibliografía	42
