

Table of Contents

Chapter 1: Introduction	1
1.1 Overview	1
1.2 The 2007 AYSS along the LOFS (a state-of-the-art before this presentation.....)	4
1.3 State-of-the-art on active faulting and surface rupture	8
1.3.1 Study of the faulting-earthquake relationship.....	8
1.3.2 Field studies.....	9
1.3.3 Elaboration, interpretation and use of empirical equations for earthquake related geomorphic features	11
1.3.4 Analog and numerical models: factors that control surface rupture	13
1.3.7 Surface rupture and geological risk.....	14
1.4 Hypothesis.....	14
1.5 General and specific goals.....	15
1.6 Methodology	16
1.6.1 Bathymetry.....	17
1.6.2 Air-gun seismic reflection profiling	19
1.6.3 Seismic event locations	21
1.6.4 Geomorphological mapping.....	22
1.6.6 Radiocarbon dating	25
Chapter 2: Geodynamics and Climate	30
2.1 Geological setting.....	30
2.1.1 General geology	30
2.1.2 Sedimentary infill in patagonian fjords	31
2.2 Plate boundaries settings.....	32
2.3 History and evolution of the convergent margin.....	33
2.4 Regional geomorphology	34
2.4.1 Southern sub-segment fjords and Aysén Fjord.....	36
2.4.2 Glacier Ice.....	36
2.5 Seismotectonics of Southern-central Chile.....	36
2.5.1 Historical Earthquakes in South-Central Chile	38
2.5.2 Liquiñe-Ofqui fault system	39
2.5.3 Other faults (diagonal to LOFS)	41
2.5.4 Kinematic regime history and evolution	42
2.6 Climate and Paleoclimate settings	44
2.6.1 Regional climate	44
2.6.2 Late Quaternary Glaciations in the North Patagonian Andes.....	44
Chapter 3: Active Faulting, Submarine Surface Rupture, and Seismic Migration along the Liquiñe-Ofqui Fault System, Patagonian Andes	50

Abstract	50
Plain Language Summary	50
3.1 Introduction.....	51
3.2 Seismotectonic setting	52
3.2.1 Liquiñe-Ofqui Fault System and related tectonic features	52
3.2.2 The 2007-AYSS.....	55
3.3 Data and Methodologies.....	56
3.3.1 Bathymetry.....	57
3.3.2 Seismic profiling	57
3.3.3 Seismic event locations	58
3.4 Results and interpretation	58
3.4.1 Geomorphology of the inner-fjord seafloor.....	58
3.4.2 Seismic stratigraphy	60
3.4.3 Active faulting in the Liquiñe-Ofqui Fault System.....	68
3.5 Discussion.....	70
3.5.1 Architecture of postglacial sedimentary infill in the inner Aysén Fjord.....	70
3.5.2 Surface rupture and paleoseismological record	73
3.5.3 Seismic migration and seismotectonic model.....	75
3.6 Conclusions.....	79
Chapter 4: Glacial Quaternary geology of the Patagonian Andes across the Coyhaique-Puerto Aysén transect constrains neotectonics and paleoseismological observations along the Liquiñe-Ofqui Fault System.....	82
Abstract	82
4.1 Introduction.....	82
4.2 Study area	84
4.2.1 Regional physiological settings	84
4.2.2 Geological Settings	86
4.2.3 Climate Settings.....	86
4.2.4 General hydrography	88
4.3 Methodology.....	88
4.4 Results	91
4.4.1 Coyhaique River Basin (CRB)	91
4.4.2 Emperador Guillermo and Mañihuales rivers confluence zone.....	111
4.4.3 Lake Riesco zone	115
4.4.4 Aysén River valley zone	118
4.4.5 Aysén Fjord zone	120
4.5 Discussions	121
4.5.1 First-order glacial geomorphological domains and depositional environments	121

4.5.2 Morphostratigraphic Systems ages and correlation with other glacial systems	122
4.5.3 Dating of glacial deposits as a proxy for paleoseismology studies in fjords	126
4.6 Conclusions.....	127
Chapter 5: Discussions	129
5.1 The 2007-AYSS and surface rupture along the active branches of LOFS	129
5.2 Post-glacial activity on the LOFS and Ice-sheet retreat after the LGM.....	132
5.3 Sedimentary and geomorphological imprinting as a tool to detect tectonic processes	134
Chapter 6: Conclusions and recommendations.....	138
Bibliography.....	142
Appendix A	188
Text A1: Introduction	188
P-wave velocity in Aysén Fjord.....	189
Slow values for P-wave velocities in sediments from fjord-type environments.....	189
Calculation of errors.....	192
Text A2. Reflectors offsets correlation with Buried MDU.....	201
Appendix B	208
Publications and Abstracts resulting from this Dissertation.....	228
Publications	228
Conference abstracts	228
Presentations in congresses and workshops	228
Publications and Abstracts resulting from side –projects.....	229
Publications	229
Conference abstracts	230
Participation in research projects	230
Bibliography	231
