

# Contents

<b>1. Introduction</b>	<b>1</b>
1.1. Unique continuation property . . . . .	1
1.2. Null-controllability of the heat equation . . . . .	4
1.2.1. The Hilbert Uniqueness Method and its penalised version . . . . .	6
1.2.2. $\phi(h)$ -null controllability . . . . .	7
1.3. Discrete Calderón problem . . . . .	8
<b>2. Discrete calculus for uniform meshes</b>	<b>10</b>
2.1. Some preliminaries on discrete formulations . . . . .	10
2.1.1. Definition of primal and dual meshes . . . . .	10
2.1.2. Definition of the discrete operator . . . . .	11
2.1.3. Discrete calculus formulas . . . . .	12
2.2. Some discrete calculus results . . . . .	14
<b>3. Stability estimate for the semi-discrete linearized Benjamin-Bona-Mahony equation</b>	<b>22</b>
3.1. Discrete Carleman estimates with boundary observation . . . . .	23
3.2. Stability estimate for space semi-discrete BBM equation . . . . .	24
3.2.1. The continuous case . . . . .	25
3.3. Proof of the stability estimate . . . . .	25
3.3.1. Proof of Theorem 3.2 . . . . .	26
3.4. Discrete Carleman estimate . . . . .	28
3.4.1. The continuous case . . . . .	28
3.4.2. Proof of the discrete Carleman estimate . . . . .	30
3.4.2.1. Proof Theorem 3.1 . . . . .	30
3.5. Proof of intermediate results . . . . .	34
3.5.1. Proof of Lemma 3.2 . . . . .	34
3.5.2. Proof of Lemma 3.3 . . . . .	34
3.5.3. Proof of Lemma 3.4 . . . . .	36
3.5.4. Proof of Lemma 3.5 . . . . .	37
3.5.5. Proof of Lemma 3.6 . . . . .	39
<b>4. Carleman estimates and controllability for a semi-discrete fourth-order parabolic equation</b>	<b>41</b>
4.1. Semi-discrete Carleman estimate for uniform meshes . . . . .	45
4.1.1. Conjugate operator . . . . .	45
4.1.2. An estimate for the left-hand side . . . . .	46
4.1.3. An estimate for the cross-term . . . . .	47

4.1.4.	Conclusion . . . . .	48
4.2.	$\phi(h)$ -null controllability . . . . .	49
4.2.1.	Observability inequalities . . . . .	49
4.2.2.	Controllability results . . . . .	53
4.3.	Appendix . . . . .	55
4.3.1.	Estimate of $I_{11}$ and $I_{41}$ . . . . .	55
4.3.2.	Estimate of $I_{12}$ . . . . .	57
4.3.3.	Estimate of $I_{13}$ . . . . .	59
4.3.4.	Estimate of $I_{14}$ . . . . .	61
4.3.5.	Estimate of $I_{21}$ . . . . .	62
4.3.6.	Estimate of $I_{22}$ . . . . .	65
4.3.7.	Estimate of $I_{23}$ . . . . .	67
4.3.8.	Estimate of $I_{24}$ . . . . .	69
4.3.9.	Estimate of $I_{31}$ . . . . .	71
4.3.10.	Estimate of $I_{32}$ . . . . .	71
4.3.11.	Estimate of $I_{33}$ . . . . .	73
4.3.12.	Estimate of $I_{34}$ . . . . .	74
4.3.13.	Estimate of $I_{42}$ . . . . .	75
4.3.14.	Estimate of $I_{43}$ . . . . .	77
4.3.15.	Estimate of $I_{44}$ . . . . .	79
4.3.16.	Proof of Lemma 4.2 . . . . .	80
4.3.17.	Proof of Lemma 4.3 . . . . .	81
4.3.18.	Proof of Lemma 4.4 . . . . .	81
<b>5.</b>	<b>Discrete Carleman estimates for inverse problem with partial data</b>	<b>84</b>
5.1.	Some preliminaries . . . . .	85
5.2.	Carleman estimate with boundary observations . . . . .	88
5.2.1.	Carleman estimate . . . . .	89
5.3.	Application to an inverse problem with partial data . . . . .	98
<b>6.</b>	<b>Some conclusions and commentaries</b>	<b>103</b>
6.1.	On Chapter 2 . . . . .	103
6.2.	On Chapter 3 . . . . .	103
6.3.	On Chapter 4 . . . . .	104
