

Chapter 1 Contents

Chapter 1 : Mountain building processes in the Central Andes, and their record within the Preandean Depression.	1
1.1.-General Background	1
1.2.-Tectonics and structure of the Preandean Depression between 22°-24°S.....	4
1.3.-Work Hypotheses.....	9
1.4.-Objectives	11
1.5.-Chapter Description	11
Chapter 2 : Geometry and late Mesozoic-Cenozoic evolution of the Salar de Atacama Basin (22°30'-24°30'S) in the northern Central Andes: New constraints from geophysical, geochronological and field data.	13
Chapter 3 : Structure and geometry of the Precordillera-Preandean Depression boundary in northern Chile: A case study from the Salar de Atacama Basin.....	35
Chapter 4 : Age and provenance of the Mesozoic-Cenozoic sedimentary units within the Salar de Atacama Basin-El Bordo Escarpment.....	54
4.1.-Introduction and standing geochronological issues	54
4.2.-Methodology.....	55
4.3.-Results.....	57
4.4.-Provenance.....	60
Chapter 5 : Discussion.	63
5.1.-Basin chronostratigraphy and pending issues	63
5.2.-Late Mesozoic-Cenozoic paleogeographic evolution of the Salar de Atacama Basin.....	69
5.3.-Structure and formation of the Precordillera-Preandean Depression boundary.....	72
5.4.-Basin response to regional tectonics and plate dynamics	74
5.5.-Regarding the Salar de Atacama Basin as an anomaly.....	82
Chapter 6 : Conclusions and future work.....	87
Chapter 7 : Bibliography.....	90
Supplementary Material A.	1
Gravity data for Chapter 2.....	1
Gravity and magnetic data for Chapter 3	2
Supplementary Material B.	1
U-Pb detrital zircon tables for Chapters 2 and 4.....	1
Supplementary Material C	1
Publications and collaborations within the study area	1

Supplementary Material D	1
List of additional collaborations and presentations	1
