

TABLE OF CONTENT

List of Figures	iv
Introduction	1
1 Preliminaries	4
1.1 Interval dynamics	4
1.2 Unimodal maps	6
1.3 Combinatorics of unimodal maps	7
1.4 Ergodic theory	10
2 Fibonacci combinatorics	12
2.1 Fibonacci combinatorics	12
2.2 The combinatorics of the set $\omega_T(c)$	14
2.3 Diameter estimates	19
2.4 The invariant measure	19
3 Maps with unbounded derivative	22
3.1 Maps with singularities	22
3.2 Example	25
3.3 Recurrence of the turning point	26
4 Regular measures and Lyapunov exponents	30
4.1 Lyapunov exponents	30
4.2 Adapted measure	38
5 Future work	40
5.1 Families of Lorenz-like maps	40
5.1.1 Saddle-node bifurcation	43
5.1.2 Real Bounds and distortion estimates	43
5.2 Feigenbaum-Coulet-Tresser universality	52
5.3 Monotonicity of entropy	55
Bibliography	61
