

Contents

Introduction and bibliographical discussion	1
1 A shape reconstruction algorithm	4
1.1 Fluid model	4
1.1.1 Stationary case	5
1.1.2 Dynamic case	6
1.2 Summary for the stationary identification algorithm	6
2 Extension to subdomain measures	10
2.1 Shape derivative	11
2.2 Determination of the domain deformation field	13
2.3 Testing on symmetric domain	16
3 Extension to a mobile wall	18
3.1 Direct method	18
3.2 Quasi-stationary method	23
4 Numerical Results	25
4.1 Extension to subdomain measurements	26
4.2 Extension to a mobile wall	27
Conclusion and discussion	32
Bibliography	34
