participating as a lecturer at many seminars, forums and workshops. He obtained a Master's in Residential Housing at the University of Chile.

Natalia Jorquera Silva is a Chilean architect (University of Chile, 2005) with a doctorate degree in Architectural Technology (University of Florence, Italy, 2012). Since 2012, she has been a full-time assistant professor and researcher at the Faculty of Architecture and Urbanism at the University of Chile in Santiago, where she teaches and conducts research on vernacular architecture, traditional building technologies, and seismic risk prevention. She teaches Traditional Technologies and Building with Earth courses for the degree of architecture, and Pathology of Materials and Constructive Techniques II for the post-graduate diploma in architectural conservation and restoration. Since 2005, she has worked on several restoration projects related to Chilean adobe historical buildings (damaged by earthquakes, as part of the Studio Surtierra: <http://www.surtierraarquitectura.cl/>) and as a freelance consultant. She is an expert member of the International Scientific Committee on Earthen Architectural Heritage (ISCEAH) of the International Council of Monuments and Sites (ICOMOS) and a member of the Iberian-American network PROTERRA.

Luca Magagni graduated as a bachelor architect in the year of 2010 at the Academy of Architecture in Mendrisio, Switzerland. In 2012, his thesis entitled *City of Sports: The Transformation of the Public Space* was overseen by Swiss architects V. Olgiati and P. Flammer. In 2013 he relocated to Santiago, where he has worked with many leading architectural firms. He currently focuses his

interest on various topics such as construction, urban investigation, transient architecture, and marketing. He maintained partnership with the academic environment having worked as an assistant professor at WAVE IUAV in Venice and at the San Sebastián University in Santiago de Chile. Since 2013 he sits on the board of the CAC (Centre of Contemporary Architecture) which is based in Santiago de Chile.

Mario Marchant Lannefranque is an architect with a degree from University of Chile and a M.Sc. in Advanced Architectural Design from Columbia University. He is an assistant professor at University of Chile's Department of Architecture, where he integrates the research group Design and Agonism, developing theoretical and creative inquiries about the potential relations that design could sustain with the emergence of political dissent. He is also an associate professor at San Sebastián University, where he is director of *Materia Arquitectura*, a biannual journal of architecture published since 2009. His creative and research work focuses on architectural theory, criticism and design, specifically on articulating typological studies, media and the city. His articles have been published in journals and magazines such as *Summa+*, *CA*, *Revista 180*, *Spam_Arq*, and *Volume*. Marchant has also written in books including *Espacio Continuo* (Santiago: Ediciones Daga, 2012), *SCL 2110* (Santiago: Uqbar Editores, 2011), and *5.688 Domestic Landscapes* (Madrid: Sepes, 2009). He has lectured at the GSD Harvard University, Central University of Venezuela, and at the Superior Technical School of Architecture of Madrid, among others. He was Director of the National Section of XVII Chilean Biennial of Architecture and Territory (2012), and is the recipient of many awards, including the William Kinne Fellowship (GSAPP, Columbia University) and the Young Architect Award 2011 by the Architects Association of Chile.
