

# Propolis from Chilean matorral hives

Muñoz, Orlando

Peña, Raúl C.

Ureta, Enrique

Montenegro, Gloria

Timmermann, Barbara N.

Viscidone (0.5%), vanillin, 3,4-(methylenedioxy)acetophenone, 3-ethoxy-4-methoxybenzaldehyde, cinnamic acid, 3-methoxy-4-hydroxymethyl ester were isolated from propolis of hives from Cuncumen. This is the first report on propolis composition of an arid and a Mediterranean type climate area.
