Introduction	1
1 Endogenous Timing in a differentiated Cournot Duopoly	13
1.1 Endogenous Timing and Equilibrium Selection	14
1.1.1 Extended Game with Observable Delay (GOD)	16
1.1.2 Extended Game with Action Commitment (GAC)	18
1.2 Investment Stage	29
1.2.1 Exogenous timing	30
1.2.2 Case GOD	32
1.2.3 Case GAC	32
1.3 Conclusions	33
2 Endogenous Timing with Supermodular Competition	36
2.1 Game with Observable Delay	38
2.1.1 Risk Dominance.	41
2.1.2 Risk Dominance: Tough and Soft investment	42
2.1.3 A particular case: price competition and different marginal costs.	44
2.2 Game with Action Commitment	48
2.3 Conclusions	52
3 Endogenous Timing with Submodular Competition	54
3.1 Game with Observable Delay	56
3.2 Game with Action Commitment	59
3.2.1 A particular case: quantity competition and different marginal costs.	66
3.3 Conclusions	68
4 Conclusions	70
4.1 Conclusions	70
4.2 Future Work: Investment Stage	73
4.2.1 Benchmark: exogenously determined timing	74
4.2.2 Investment with endogenous timing	75
Bibliography	77
Appendix	79
